ALTERNATE SHOT/SCOTCH DOUBLES

Qualifying will consist of 16 games of Alternate Shot/Scotch Doubles Bowling. There will be no more than 2 Teams per lane. A bowler cannot throw 2 shots in a row. If you don't strike your partner shoots the spare. Must alternate shots in the 10th frame also and you cannot throw the 1st ball the next game if you threw the last ball in the previous game. (except at the start of the 2nd block)

Bowlers decide at the start of each block who will leadoff.

The Team bowls the entire game on the lane they are assigned. After the first game the teams that started on the left lane will move left for the entire day and the teams that started on the right lane will move right for the entire day. If you bowl your first game on an odd lane you will bowl your second game on an even lane, your third game on an odd lane, fourth game on even lane, etc. After 8 games we will break for Lunch. After lunch you will keep moving the same way as you started the day
